ENTRY TO SPAIN – NEW RESTRICTIONS

Dear Owner,

On November 12, 2020, the Ministry of Health of the Government of Spain published in the Official State Bulletin the new regulation for the entry of travelers to Spain, in the case of coming from a foreign country:

The new regulation will come into force on November 23rd, 2020 and it establishes:

- This new regulation affects whether you come to Spain by air or by sea.
- A negative PCR test will be requested from any traveler from any country on the attached list, carried out within 72 hours prior to the trip. Evidence of another type will not be valid.
- The document accrediting the PCR test must be in Spanish or English.
- It will also be necessary to fill in the "Sanitary Control Form" that can be found on the website <https://www.spth.gob.es> or in Spain Travel Health – SpTH app. The information is available in several languages.
- The form is different if travel is by sea, so you should check the following web page: <https://www.mscbs.gob.es/profesionales/saludPublica/sanidadExterior/ControlHS.htm>
- Likewise, on arrival to Spain there will be a temperature measurement or other tests. A sanitary protocol will be established if the temperature is higher than 37.5 degrees Celsius.
- The list of countries will be reviewed every 15 days.
